Informatics graduate with a 3.87 GPA and hands-on experience in data analytics, data processing, and business reporting. Analyzed 26,000+ customer feedback records using Python and Excel, developed Power BI dashboards to communicate insights, and automated data-related workflows to improve operational efficiency. Proficient in data cleaning, exploratory analysis, visualization, and SQL, with a strong interest in applying data-driven insights to business decision-making.

EDUCATION

UNIVERSITAS PEMBANGUNAN NASIONAL "VETERAN" JAKARTA – Jakarta, Indonesia Aug 2022 – Jul 2026
Informatics, Bachelor of Computer Science, GPA 3.87 / 4.00

- Completed 160 credits (SKS), surpassing the 144 credit graduation requirement while balancing coursework with organizational leadership roles.
- Relevant Coursework: Statistics, Machine Learning, Data Analytics, Database Systems, Data Mining, Big Data.

WORK EXPERIENCE

PT Ajaib Sekuritas – Jakarta, Indonesia Jan 2026 – Apr 2026
Customer Success Operations Intern

- Initiated a pilot analysis of 10,000+ CSAT and DSAT records, cleaning and standardizing CRM data using Python and Excel to identify recurring customer dissatisfaction patterns.
- Developed Excel and Power BI reports to communicate customer feedback insights and support SOP revisions, UI/UX improvements, and customer response handling.
- Automated ticket allocation and quality-monitoring workflows using Google Sheets and Apps Script, developing a round-robin assignment system and QC reports used by 11 team members.
- Managed daily customer support tickets through Zendesk, supporting ticket tracking and operational monitoring.

PT XLSMART Telecom Sejahtera Tbk – Jakarta, Indonesia Sep 2024 – Dec 2024
Customer Experience Management Intern

- Analyzed 16,000+ NPS responses across 6+ brands and products using Python and Excel to identify recurring customer experience issues and improvement opportunities.
- Developed Excel and Power BI dashboards to monitor NPS performance, visualize customer insights, and support customer journey improvement initiatives.
- Managed 5+ market research surveys to gather feedback on products, service quality, and customer experience.
- Proposed an AI-powered dashboard integrating NPS, customer verbatims, and competitor analysis to improve productivity within the CX division through the X-PITCH Innovation Case Competition.

Programming & Database	: Python, SQL, PostgreSQL, MySQL
Data Tools	: Microsoft Excel, Google Sheets, Power BI
Excel	: PivotTables, XLOOKUP/VLOOKUP, INDEX-MATCH, IF/IFS, SUMIFS/COUNTIFS
SQL	: JOIN, GROUP BY, HAVING, CASE WHEN, Subqueries, CTEs, UPSERT
Automation	: Google Apps Script
Languages	: Indonesian (Native), English (Intermediate) [proof].

IT PROJECTS

GoiHunt – AI Powered Japanese Vocabulary Learning App – Undergraduate Thesis [repo] Jan 2026 – Jul 2026

- Designed and implemented a 10-table PostgreSQL database involving joins, upserts, and cascading deletes to manage user profiles, learning progress, gamification, and classification records.
- Trained a MobileNetV2 image classification model using transfer learning on 10,000 self-collected images, achieving 96.69% test accuracy.
- Developed a full-stack application using React, Node.js, and Express, implementing 28 REST API endpoints.

Notalens – AI-Powered Receipt Scanner & Expense Management App [repo] Jan 2026 – Jul 2026

- Designed a 5-table PostgreSQL database to manage financial transactions and workspaces, using indexes to support user- and workspace-scoped queries.
- Integrated AI-powered OCR using Python and FastAPI to extract structured data from receipts, with manual verification and PDF/Excel export.
- Developed a full-stack application using Next.js and TypeScript, implementing 15 REST API endpoints across transaction and workspace modules.

ORGANIZATIONAL EXPERIENCE

AIESEC in Indonesia – Jakarta, Indonesia Aug 2024 – Jan 2025

National Supporting Team of Platform Coordinator

- Coordinated 3 specialist teams across UI/UX, CRM, and SEO content, managing timelines and deliverables.
- Optimised aiesec.or.id, serving 40.000+ monthly users, by improving website performance and revamping 6 pages.
- Developed automated email workflows for form registrations across 27 local branches and 4 events, reducing manual follow-up.

AIESEC in UPNVJ – Jakarta, Indonesia Feb 2024 – Jan 2025

Head of Marketing Department

- Led 3 subteams of 8 members across Brand, Initiatives, and ELD, executing marketing strategies for 7 products.
- Generated 1,564 registrants against a target of 1,376, exceeding the target by 14% and earning 2 departmental performance recognitions.

CERTIFICATION

- IT Specialist Data Analytics by Certiport [url] Issued Oct 2025 – Expires Oct 2030
- AI Engineer Intensive Course by Pijak Dicoding x IBM SkillsBuild [url] Issued Jul 2026 – Expires Jul 2031
